MEEM WATER TECHNOLOGY LTD.

A TRUSTWORTHY SOURCING EXPERT ON WATER TREATMENT FACILITIES

As a senior sourcing expert on water treatment facilities and accessories, Meem Water Technology Ltd. has extensive water treatment expertise, profound water treatment industry experience and a deep understanding of the water treatment industry purchasing demands. As a consequence, we are capable of providing one-stop purchase and technical support on water treatment facilities and accessories according to our customers' applications, thereby helping our customers to shorten the procurement cycle, reduce procurement costs and maximize economic benefits.

We integrate upstream supply chain products of the water treatment industry. In addition, we work with renowned suppliers and manufacturers. As a result, we can continuously supply high-quality water treatment components and systems for customers across the world to meet the needs of a Wide Range of Applications, Thereby Optimizing Water Resources and Promoting The Sustainable Development of The Global Environment.

Multiple-Valve-In-One 04

Automatic Control Valve 05

Manual Control Valve 06

Applications & Industry 07

Multiple-Valve-In-One

High flatness ceramic moving disk and high strength fixed disk guarantee excellent sealing

Part balance pressure structure can reduce the pressure acting on the sealing surface and reduce the rotational torque

Signal collection points set on a circular surface which can realize accurate positioning.

**Automatic
Filter Valve**

Softener Valve**

Manual Filter Valve

Applications & Industry

Control valves (filter valves and softening valves) are core component during filtering and softening system. They are widely used in various fields to guarantee efficient and easier water treatment.

Filtering & Softening

Industrial Fields

Water filtering and softening for boiler, heat exchange equipment, cooling system and RO system.

Agriculture

Water filtering and softening for crops and flowers irrigation, livestock drinking, vegetables and fruits washing.

Residential

Water filtering and softening for drinking, bathing, cooking, as well as for electric boilers, water heaters, underfloor heating and other installations.

Commercial

Pre-filtering and softening of RO system for drinking and domestic use. It can be used for swimming pool filtering.
